C Mathematical and Quantitative Methods

Y.-K. Ng and Y.-N. Yeh, Comparative statics without total differentiation of the first-order conditions (C00)161
F. Selçuk, Currency substitution: new evidence from emerging economies (C5) 219
Z. Yang, A competitive market model for indivisible commodities (C6) 41
S.I. Radchenko and M.-S. Yun, A Bayesian approach to decomposing wage differentials (C11)431
V.J. Gabriel, Cointegration and the joint confirmation hypothesis (C12) 17
Z. Xiao, Note on bandwidth selection in testing for long range dependence (C12) 33
N.P.A. van Giersbergen, A note on bootstrapping unit root tests in the presence of a non-zero drift (C13)259
M.J. Presno and A.J. López, Response surface estimates of stationarity tests with a structural break (C15)395
D.A. Peel and C. Ioannidis, Empirical evidence on the relationship between the term structure of interest rates and future real output changes when there are changes in policy regimes (C22)147
I.-M. Kim, Operational time of the Korea stock markets (C22)181
E. Ruiz and A. Pérez, Asymmetric long memory GARCH: a reply to Hwang's model (C22)415
V. Montuenga, I. García and M. Fernández, Wage flexibility: evidence from five EU countries based on the wage curve (C23)169
M. Funk and J. Strauss, Panel tests of stochastic convergence: TFP transmission within manufacturing industries (C23)365
M. Ehrmann, M. Ellison and N. Valla, Regime-dependent impulse response functions in a Markov-switching vector autoregression model (C32)295
P. Wang, A bivariate zero-inflated negative binomial regression model for count data with excess zeros (C35)373
A. Lahatte, Restrictions on the autoregressive parameters of share systems with spatial dependence (C50)225
A. Meirowitz, On the existence of equilibria to Bayesian games with non-finite type and action spaces (C62)213
A. Blume, Bertrand without fudge (C72)167
A. Mitropoulos, An experiment on the value of structural information in a 2×2 repeated game (C73) 27
F.H. Chen, A result on equilibrium matching with search frictions (C78)317

D Microeconomics

R.G. Chambers and J. Quiggin, Indirect certainty equivalents for the firm facing price and production uncertainty (D2) 309
S. Nape, P. Frykblom, G.W. Harrison and J.C. Lesley, Hypothetical bias and willingness to accept (D6) 423
A. Henley, A. Carruth and A. Dickerson, Industry-wide versus firm-specific uncertainty and investment: British company panel data evidence (D8) 87
R.C. Feenstra, A homothetic utility function for monopolistic competition models, without constant price elasticity (D12) 79
K.J. Meagher, Generalizing incentives and loss of control in an optimal hierarchy: the role of information technology (D20)273
M. Ravallion and S. Chen, Measuring pro-poor growth (D31) 93
Q. Wodon and S. Yitzhaki, The effect of using grouped data on the estimation of the Gini income elasticity (D33)153
A. Hyytinen, Loan market equilibrium with difference of opinion and imperfect competition (D43)125
L. Lambertini and C. Schultz, Price or quantity in tacit collusion? (D43)131
Y. Chun, One-sided population monotonicity, separability, and the uniform rule (D63)343
I. Bradley, The representative bettor, bet size, and prospect theory (D80)409
A. Chakraborty and R. Harbaugh, Cheap talk comparisons in multi-issue bargaining (D82)357
V. Kargin, Prevention of herding by experts (D82)401

Elsevier Science B.V.
PII: S0165-1765(03)00012-0

E Macroeconomics and Monetary Economics

A.V. Guender, Optimal monetary policy under inflation targeting based on an instrument rule (E5) 55
J. Dolmas, A note on the potential pitfalls in estimating a 'wealth effect' on consumption from aggregate data (E21)437
J. Konings, M. Rizov and H. Vandenbussche, Investment and financial constraints in transition economies: micro evidence from Poland, the Czech Republic, Bulgaria and Romania (E22)253
M. Boileau and M.-A. Letendre, How much persistence should sticky-price models generate to match US data? (E30)335
L.N. Christofides and T.P. Mamuneas, Inflation and productivity shocks (E31)117
F. de Holanda Barbosa and A. Barros da Cunha, Inflation tax and money esssentiality (E31)187
J. Ordóñez, Stability and non-linear dynamics in the broad demand for money in Spain (E41)139
P.J. Coe and J.M. Nason, The long-horizon regression approach to monetary neutrality: how should the evidence be interpreted? (E41)351

F International Economics

A. Razin and E. Sadka, Gains from FDI inflows with incomplete information (F2) 71
S.H. Karlson and E. Katz, A positive theory of immigration amnesties (F22)231
R. Gaston Gelos, Foreign currency debt in emerging markets: firm-level evidence from Mexico (F31)323
J. Cukrowski and E. Aksen, Perfect competition and intra-industry trade (F100)101

G Financial Economics

H. Li, Reversing privatization as a screening mechanism (G3) 267
C. Christiansen, Testing the expectations hypothesis using long-maturity forward rates (G12)175
A. Garcia Pascual, Assessing European stock markets (co)integration (G15)197
P. Harms and C. Hefeker, Globalization and unemployment: the role of international diversification (G15)281
T. Erol, Capital structure and output pricing in a developing country (G32)109
J. Du, Why do multinational enterprises borrow from local banks? (G32)287
K. Gugler and B.B. Yurtoglu, Average q, marginal q, and the relation between ownership and performance (G32)379

H Public Economics

J. Zhang, Comparing social security programs with leisure and bequests (H55) 59

J Labor and Demographic Economics

D.A. Jaeger, Estimating the returns to education using the newest current population survey education questions (J3) 385
J.W. Albrecht, P.A. Gautier and S.B. Vroman, Matching with multiple applications (J41) 67

K Law and Economics

K. Hendley and P. Murrell, Which mechanisms support the fulfillment of sales agreements? (K0) 49

L Industrial Organization

I. Ahamada and M. Boutahar, Erratum to "Tests for covariance stationarity and white noise, with an application to Euro/US dollar exchange rate: An approach based on the evolutionart spectral density" [Economics Letters 77 (2002) 177–186] 293
G. Symeonidis, Quality heterogeneity and welfare (L13) 1
A. Mukherjee, Does society prefer small innovation? (L13)301

G. Bel, Confidence building and politics in privatization: some evidence from Spain (L33) 9

O Economic Development, Technological Change, and Growth

B.-L. Chen, An inverted-U relationship between inequality and long-run growth (O4) 205
J.C.V. Pezzey, Measuring technical progress in gross and net products (O30)247

Q Agricultural and Natural Resource Economics

M. Naldi, Concentration indices and Zipf's law (C49)329
R. Ramos, M. Clar and J. Suriñach, National versus sectoral shocks: new evidence for the manufacturing sector in European countries (R11)241
